

SOP-WH-042: Warehouse Exception Handling

Description

Standard Operating Procedure (SOP)

Document Code: SOP-WH-042

Title: Handling Inventory Discrepancies During Handheld Picking

Effective Date: August 2026

Owner: Operations & Logistics Team

1. Purpose

This procedure defines standard steps for warehouse staff when a physical item is missing or mislocated during handheld digital picking.

2. Standard Workflow Steps

1. **Discrepancy Reporting:** If an item is missing from the designated shelf/bin, the worker selects "**Stock Discrepancy**" on the RF handheld scanner.
2. **Automated Re-routing:** The WMS automatically searches adjacent secondary storage locations and re-routes the picking route within 30 seconds.
3. **Inventory Audit Trigger:** The system generates an urgent cycle count task for the inventory audit team to resolve physical vs. digital stock discrepancies within 2 hours.
